

Faaiz Farid

Web Developer/Software Eng.

 Lahore, Punjab, Pakistan

As a website developer, I have expertise in designing and developing user-friendly websites that meet the needs of clients. My experience in both front-end and back-end web development allows me to create visually appealing user interfaces while also implementing best practices for performance, security, and search engine optimization. I have collaborated with cross-functional teams to create high-quality web applications and have experience in client communication and technical support.

Work Experience

Frontend Developer • TronsIT Solutions

Oct 2024 - Current

At Hurak, I excel as a front-end developer and instructional designer. My work is marked by innovation and dedication, and I contribute to our success. I'm proud to drive impactful outcomes for the company.

Frontend Developer • Hurak Learning Limited

Oct 2023 - Oct 2024

At Hurak, I excel as a front-end developer and instructional designer. My work is marked by innovation and dedication, and I contribute to our success. I'm proud to drive impactful outcomes for the company.

Frontend Developer • Dexpel

April 2022 - September 2023

At dexpel, I design and develop user-friendly websites, collaborating with cross-functional teams to create high-quality web applications. My experience in both front-end and back-end web development allowed me to implement best practices in web development, optimizing websites for performance, security, and search engine visibility. I also worked closely with clients to understand their requirements and provide technical support.

Frontend Developer • Hurak Learning Limited

April 2020 - April 2022

During my time at Hurak, I gained experience in both front-end and back-end web development. I used HTML, CSS, and JavaScript to create visually appealing and responsive user interfaces, while also utilizing languages such as PHP and SQL to build complex, database-driven websites.

Web Developer • Dots In Blue

November 2019 - April 2020

At Dots In Blue, I worked as a web developer, designing and developing user-friendly websites that met the needs of our clients. In this role, I collaborated closely with cross-functional teams, including designers, project managers, and quality assurance analysts, to create high-quality web applications.

Graphic Designer • Dexpel

January 2018 - November 2019

At Dexpel, I worked as a graphic designer, creating visual designs and marketing materials that communicated the company's brand and values to customers. In this role, I collaborated closely with cross-functional teams to develop and implement marketing strategies, ensuring that design elements aligned with overall business objectives.
